# 1. The ExoTrustX System

ExotrustX has deployed a high performance, permissioned blockchain network that provides institutional grade digital asset solutions.

ExotrustX offers comprehensive digital asset services for primary issuance, secondary markets, and asset management.

ExotrustX is a fully on-chain decentralized exchange scheduled to launch in October.

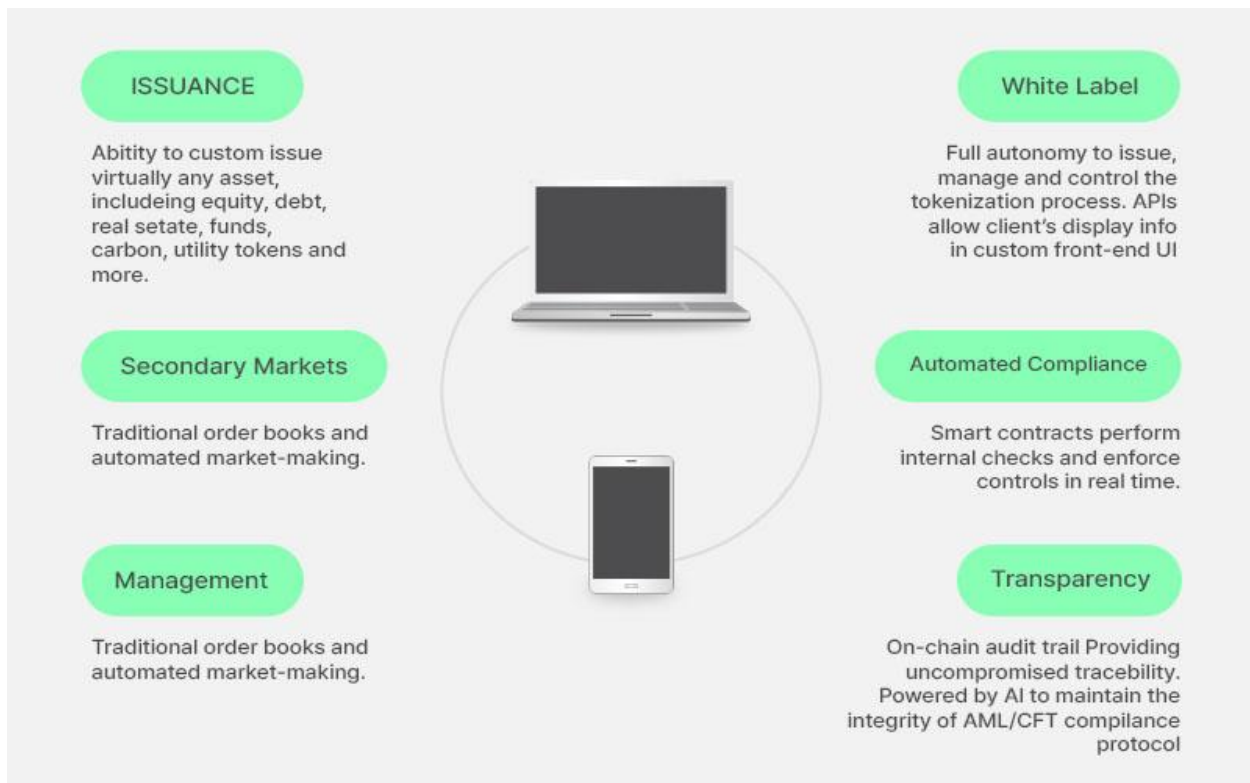

The platform has since been developed to provide a comprehensive digital asset solution

for enterprise, entailing dynamic forms of issuance, and secondary market deployments, all whilst ensuring regulatory compliance.

The platform is being developed to provide a comprehensive services. digital asset solution for enterprise, entailing dynamic forms of issuance, and secondary market deployments,

all whilst ensuring regulatory compliance.

# 1. The ExoTrustX System

The various components of the ExotrustX system  
DIAGRAM ABOVE IS FOR ILLUSTRATION PURPOSES ONLY

Exotrustx introduced the Exot token through a required KYC/AML distribution.

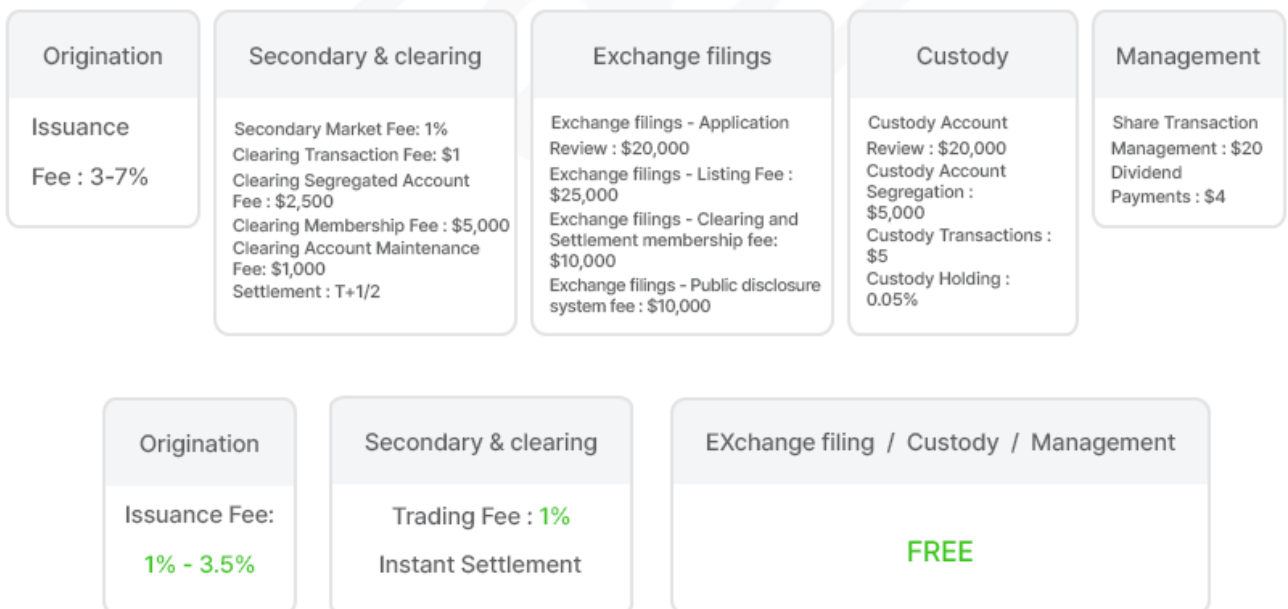

This was done to establish Exot as a long-term pivotal token within the DeFi , forming a cornerstone for the future Exot Network's digital assets.

This distribution specifically excluded citizens or residents of jurisdictions that had prohibitions

or restrictions on the offering of crypto tokens in place including the USA and China.

## 2. Digitizing Real World Assets

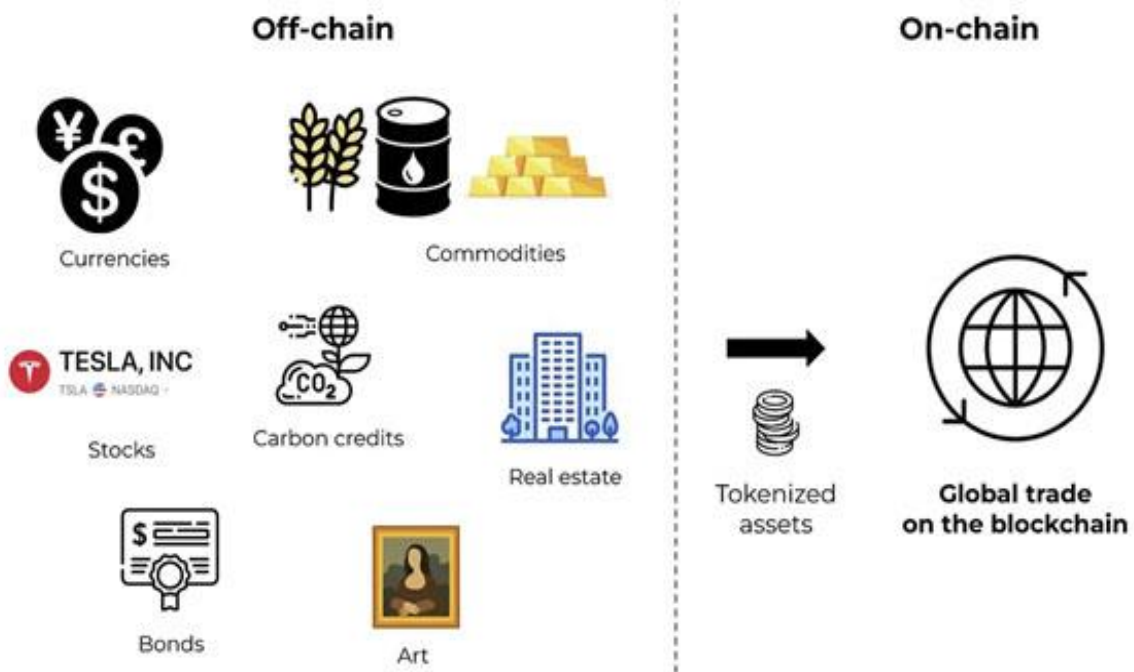

Traditional financial markets are rife with inefficiencies and issues that pose substantial challenges. Capital markets, in particular, are plagued with convoluted processes, from origination to settlement and maintenance. The reliance on a disjointed infrastructure, unnecessary middlemen, and redundant manual processes only exacerbates these inefficiencies. Financial institutions stand to save an estimated 30-70%, as they continue to operate using outdated back office processes and infrastructure. Furthermore, intermediaries levy high charges for the issuance, trading, and management of assets, including clearing and settlement and corporate actions. This proves prohibitively expensive for small and medium-sized Enterprises (SMEs), hindering their ability to compete and thrive in the financial market landscape.

ExotrustX provides a more reasonable market in response to the regulations presented by traditional financial markets.

## 2. Digitizing Real World Assets

Exotrustx allows for the creation, issuance, trading, and management of virtually any financial asset

This approach serves as a cohesive solution to the disjointed and inefficient systems of old.

By automating administrative tasks throughout the trading lifecycle, Exotrustx effectively eliminates the need for unnecessary intermediaries and outdated manual procedures.

The result is a significant reduction in costs, with a staggering 30-70% savings when compared to traditional financial systems.

### 3. Business Model

ExotrustX has agents all over the world.

Through these agents, securities, real estate, and real assets are evaluated.

We support transactions by on-chaining verified assets on the platform.

Users can trade a variety of products from each country on the ExotrustX platform.

exotrustX's transaction fee is 1%.

You can trade on-chain tokens of each country without any additional fees.

You can withdraw coins and use Pdex Mastercard for profits generated from ExotrustX.

## 4. Features on the platform

### 1) Issuance and Trading

- 1-1 ExotrustX's platform is adept at issuing a broad range of digital assets, be it real estate, equities, bonds, or more, enabling users to tokenize virtually any type of asset.
- 1-2 ExotrustX supports a highly efficient order book exchange, facilitating the smooth trading of assets. Buyers and sellers can place orders, which are then matched immediately
- 1.3 The ExotrustX platform can also interface with public blockchains and DeFi systems.  
allowing users to effortlessly convert between cryptocurrency and Pdex MasterCard.

## 4. Features on the platform

### 2 ) Regulation and Compliance:

2-1 ExotrustX takes care of all aspects of token sales, performing the necessary due diligence to ensure the credibility of the tokens and compliance with regulations.

virtually any type of asset.

2-2 Our on-chain compliance engine enforces token-level access restrictions via smart contracts, ensuring that only eligible parties can trade specific tokens.

2-3 We employ systems to diligently monitor transactions for any signs of money laundering, maintaining a secure and trustworthy platform.

2-4 Our platform features market surveillance systems designed to prevent market manipulation behaviors, upholding the integrity of our trading environment.

2-5 ExotrustX's fully automated Know Your Customer (KYC) procedures ensure that customer verification is not only seamless and secure but also compliant with legal regulations.

## 4. Features on the platform

### 3 ) Management and Administrative:

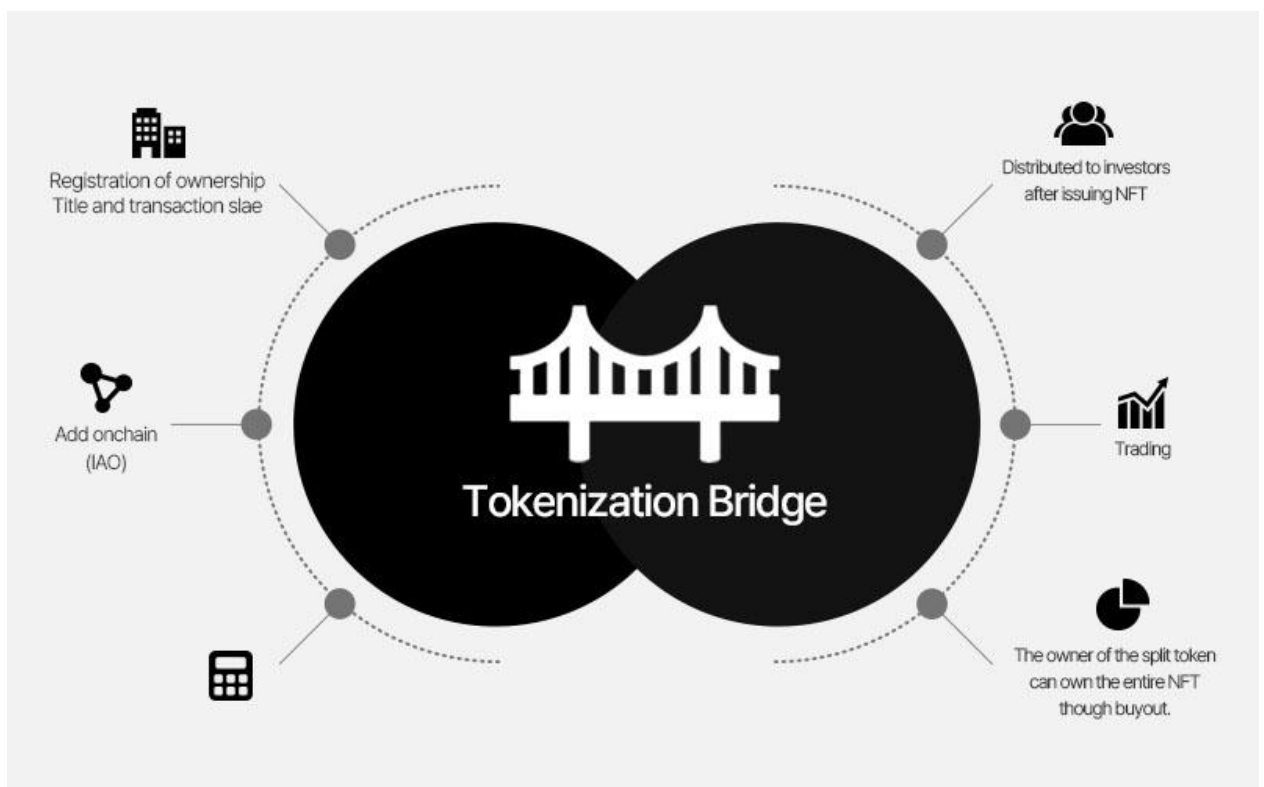

- 3-1 ExotrustX allows for the white labeling of its platform.
- 3-2 Our sophisticated token management system simplifies the tracking and management of issued tokens.
- 3-3 ExotrustX has a built-in dividend payment system that streamlines the process of paying out dividends to token holders.
- 3-4 We offer flexible systems to manage debt maturity and token buybacks, accommodating various debt structures.

## 5. Tokenization works

The mechanism used to upload assets on-chain varies from project to project.

In the case of Exotrustx, we conduct due diligence on physical sales (real estate, bonds, artwork, etc.) with legal experts independent of the company.

Exotrustx verifies real assets directly to confirm the right to sell and ownership, and directly manages sensitive issues such as rent.

Afterwards, the Exotrustx project's unique method called IAO (participate in introducing real asset on-chain) is used.

Exotrustx community members can participate in IAO for RA (Real Asset) investment in the same way as stock IPOs and virtual asset ICOs, and RWAs for which IAOs are successful are listed and tokenized using Exotrustx's unique protocol, ensuring ownership and trading .

This token will be paid in tokens such as ERC-20/TRC20/BSC, and thereafter IAO participants will receive additional compensation for participating in IAO and providing liquidity.

# 6. Infrastructure

## 1 ) Blockchain Scalability

The ExotrustX system operates on the cutting-edge BSC blockchain protocol.

Binance Smart Chain (BSC) is a new blockchain protocol that has attracted users with its low gas fees and fast transaction speeds.

BSC uses a specific PoA consensus algorithm.

This is called Proof of Authority on Staking (PoSA).

In this protocol, there are 21 validators who verify transactions at any given time.

BSC is a network with extremely fast speeds, low transaction fees (as low as 1 cent), ability to create DApps, and has millions of users.

## 2 ) Wallet System

Our innovative online wallet system sets us apart.

2Factor security uses mobile phone text authentication and Google Authenticator.

When initializing OTP, you can initialize it using KEY authentication.

We operate a cold wallet and exchange system similar to an international coin exchange.

We fundamentally block private key and information leaks

## 3 ) Integrity

The value of ExotrustX's private blockchain lies in its ability to provide an exhaustive audit trail, significantly enhancing compliance and driving down costs.

## 7. The Exotrust (EXOT) Token

Exotrust is a business name that combines two important keywords in the world of finance and technology: decentralization and trust.

The prefix “exo” usually means “external” or “external”, meaning a departure from traditional centralized financial systems.

The word “trust” conveys reliability and confidence, which are essential for any business dealing with financial transactions.

Therefore, exo Trust is a name that signifies a trustworthy and trustworthy decentralized financial system.

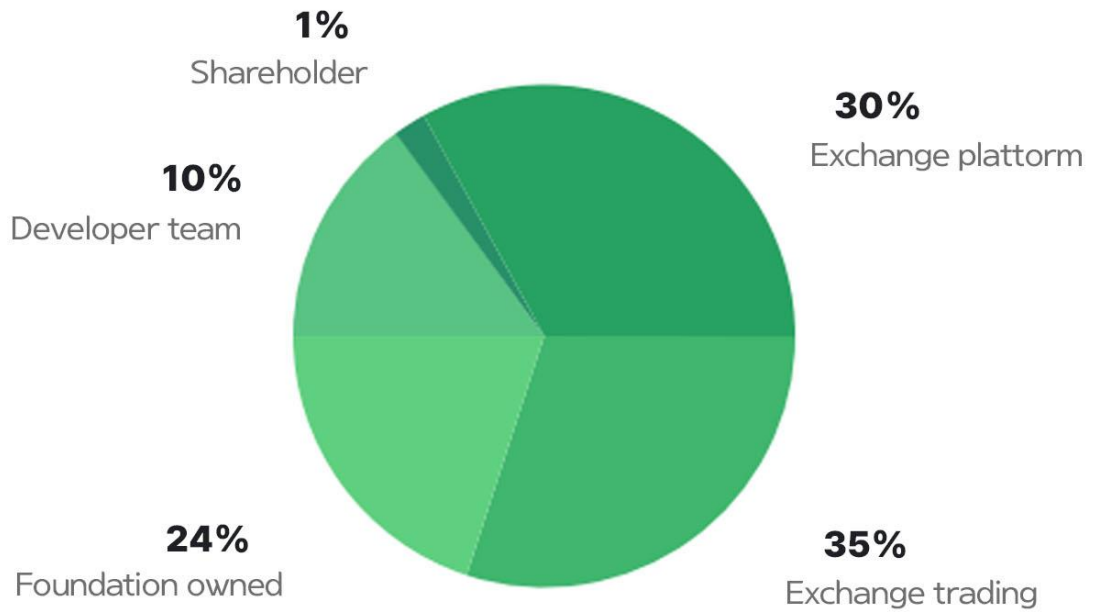

It's a catchy and meaningful name, making it an excellent choice for any business operating in the world of decentralized finance.

# 8. Exot Token Holders

Token Name  
EXIT Token

Total Token Supply  
300,000,000

Distribution	Token	Distribution
Exchange trading	105,000,000	35%
Exotrustx platform	90,000,000	30%
Foundation owned	72,000,000	24%
Developer team	30,000,000	10%
Shareholder	3,000,000	1%

# 9. IMPORTANT LEGAL NOTICES

## Nature of the Whitepaper

The Whitepaper and the Website are intended for general informational purposes only. They do not constitute a prospectus, an offer document, an offer of securities, a solicitation for investment, or any offer to sell any product, item or asset (whether digital or otherwise). The information herein may not be exhaustive and does not imply any element of a contractual relationship. There is no assurance as to the accuracy or completeness of such information and no representation, warranty or undertaking is or purported to be provided as to the accuracy or completeness of such information. Where the Whitepaper or the Website includes information that has been obtained from third party sources, the Company and the ExotrustX team have not independently verified the accuracy or completion of such information. Further, you acknowledge that circumstances may change and that the Whitepaper or the Website may become outdated as a result; and neither the Company nor the Distributor is under any obligation to update or correct this document in connection therewith.

## Informational purposes only

The information set out herein is only conceptual, and describes the future development goals for the Company protocol to be developed. In particular, any roadmap in the Whitepaper is being shared in order to outline some of the plans of the ExotrustX team, and is provided solely for INFORMATIONAL PURPOSES and does not constitute any binding commitment. Please do not rely on this information in making purchasing decisions because, ultimately, the development, release, and

timing of any products, features or functionality remain at the sole discretion of the Company and are subject to change. Further, the Whitepaper or the Website may be amended or replaced from time to time. There are no obligations to update the Whitepaper or the Website, or to provide recipients with access to any information beyond what is provided herein.

### Regulatory approval

No regulatory authority has examined or approved, whether formally or informally, of any of the information set out in the Whitepaper or the Website. No such action or assurance has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of the Whitepaper or the Website does not imply that the applicable laws, regulatory requirements or rules have been complied with.

### Cautionary Note on forward-looking statements

All statements contained herein, statements made in public or in any place accessible by the public and oral statements that may be made by the Company and the ExotrustX team, may constitute forward-looking statements (including statements regarding intent, belief or current expectations with respect to market conditions, business strategy and plans, financial condition, specific provisions and risk management practices). You are cautioned not to place undue reliance on these forward-looking statements given that these statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results to be

## 9. IMPORTANT LEGAL NOTICES

materially different from that described by such forward-looking statements, and no independent third party has reviewed the reasonableness of any such statements or assumptions. These forward-looking statements are applicable only as of the date indicated in the Whitepaper, the Company, and ExotrustX team.

### No Distribution

No part of the Whitepaper or the Website is to be copied, reproduced, distributed or disseminated in any way without the prior written consent of the Company. By attending any presentation on this Whitepaper or by accepting any hard or soft copy of the Whitepaper, you agree to be bound by the foregoing limitations.

### DISCLAIMER

THE ExotrustX including their directors, agents, employees, CONTRACTORS AND AFFILIATES DISCLAIM, IN FULL ACCORDANCE WITH THE LAW IN FORCE, ANY LIABILITY FOR LOSSES OR DAMAGE OF ANY KIND ARISING DIRECTLY OR INDIRECTLY AS A RESULT OF:

- (1) THE CONTENT OF THE WHITE PAPER, IN PARTICULAR ITS UP-TO DATE NATURE, ACCURACY AND COMPLETENESS
- (2) ERRORS OR OMISSIONS ON THE WHITE PAPER
- (3) USE OF OR ACCESS TO THE WHITE PAPER
- (4) INABILITY TO ACCESS OR USE THE WHITE

# 9. IMPORTANT LEGAL NOTICES

## PAPER FOR ANY REASON

THE ExotrustX INCLUDING THEIR DIRECTORS, AGENTS, EMPLOYEES, CONTRACTORS AND AFFILIATES DISCLAIM, IN FULL ACCORDANCE WITH THE LAW IN FORCE, ANY LIABILITY FOR:
